**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Peter Sistare on 12/17/2007.

The application has been amended as follows: Claim 11 recites, "A computer readable medium embodied with a computer program which can be read by a computer in a recording apparatus...."

2. The following is an examiner's statement of reasons for allowance: The present invention is directed towards a recording apparatus, a multiplexing device, and a control device which records the time-division multiplexed data in a memory apparatus in packet units using a ring buffer method and in the order of recording position, and forms chapter units in the memory apparatus from a specified group of packets for the same program when performing records. Independent claims identify the uniquely distinct features, "recording said time-division multiplexed data in a memory apparatus in packet units using a ring buffer method and in the order of recording position, and forming chapter units in said memory apparatus from a specified group of packets for the same program when performing records; and a second recording process of recording a new packet to be recorded over an old packet in the order of recording position when the packet length of the packet to be recorded next is greater than the data length of the

recordable area from the record end position of the newest packet in the recording order to the record start position of the oldest packet in the recording order, and takes the recordable area to be the recorded area of a chapter of packets that is equal to that old chapter of packets." The prior art fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MISHAWN DUNN whose telephone number is (571)272-7635. The examiner can normally be reached on Monday - Friday 7:30 aM to 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thai Tran can be reached on (571)272-7382. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
